F.DO/2016/KVS(BPL)

Dated: 25/10/2016

Dear Principals,

Season's greetings!

It is my privilege of being alongside you in your academic challenges and in your academic victories. I am always inspired by you, and I count it as a gift to learn along the way.

I want to ask you to lend me something, and you must not refuse. I want 100% pass result in Class - XII and X. People have overwhelming desire for 100% pass result from Bhopal Region. You become the focal point of this desire by offering 100% pass. And I ask this for your own sake. You know when you create success for the child you don't only find brighter prospect for him but also find the brighter prospect for family, society and the nation. Success triggers innovation, increases productivity, raises standard, promotes entire new 'upside culture' and drives prosperity in general, you and I included.

It was situational problem as reported that held back your result to 95.66% pass in Class XII and 99.85% in Class X. However, if we look back over time we see that this is not the first time you felt that way. It is not the first time that the forces of situational problems have affected the performance. The fact is the common denominator in all these past problems was yourself. You actually have been doing the same things in different situations over and over again. It is not only then that you should be able to change the pattern that held you back for the result of the last years. If you deeply introspect you would realize that you did not have a problem with one of your key reports but the problems with yourself.

Results are intricately tied to the structure of your abilities to be focused and initiating goals well defined. To get good result you should authenticate the strong sense and passion for achieving. Most importantly you have to be strategic in approach. The best strategy successfully experimented over the years is the 'MRAP & Error Analysis and Academic Adoption' of the slow learners. I request you do it sincerely, and the performance at the board examination shall amaze you.

I request you to recreate yourself for forging a new identity of outstanding performer that commands increased attention and respect. Incorporate our ideas into your own academic gestures and actions and your magic, which is one of your own making shall be enhanced and your character will seem larger than life.

A very special thank to you and your teachers well in advance for affirming and supporting us throughout the year time when we want real 100% pass result, as committed. I request you to make the year different for real 100% pass, than all the rest.

Your school, in view of the above, shall hopefully receive as many trophies and certificates as the number of PGTs and TGTs, amidst the crowds packed into the enormous auditorium.

I recommend you to share the DO with your teachers for their benefit.

I request you to send your action taken report immediately, within three days.

With regards,

Yours sincerely,

(Isampal)
