DEPUTY COMMISSIONER

F.DO/2015/KVS(BPL)

Dated: 08/12/2015

Dear Teachers,

IMPORTANT/TIME BOUND

The academic project like '100% quality pass result' involves a journey that begins with the seed of an idea and travels its year long path until it becomes a creation. I love the thrill of this journey, with excitement and joy. But more than anything else, when I look back on this journey I have taken here a year plus with you all, I am completely humbled by the number of incredible teachers amongst you who are playing the vital most role in helping bring the project into its final shape, as is loudly and strongly asked by Hon'ble Commissioner, KVS (For him only 100% quality pass, and no excuse at all). The journey of creating 100% quality pass result in both Class X and XII is a joy from beginning and I am sure we'll have it for the year. And my extraordinary teachers like you only would make it possible, whom I have the immense privilege to working with.

You know that there is no better feeling in the world than to have found your dreams and be living it. To work for the sheer joy of it, to wake up and be really excited, to love what you do so much that the idea of 100% quality pass result seems so inspiring – that is living.

I hereby advise you as follows:

01. Love what you do. Look forward to going to your school. Look forward seeing your students you work with. Choose this way of life and it's a good one. The idea of holding study camps during the ensuing winter break is invaluable important. Don't lose it being not available with your students. It is an opportunity to uplifting them. Your precious time given to them shall earn success for them, and honour for you. So, rush to your Principal and submit willingness for it. Some people would always say that "Why do you still work?". And you must say, 'because I am making a difference, and I'd like to continue to do that.'
02. Love to do what you are doing. It is interesting that most of my teachers say the same thing. It's great that you are professional and you get paid well to do this, and you would do it anyway. You are fortunate to have the opportunity to feel that way about what you do in teaching profession.
03. Teachers who have drive and that big dream of 100% pass result and vision to create something amazing are not the sort of people who just want to put their feet up and retire, when necessity comes. Teaching is like selling your greatest joy and reason for living, and there is no amount of money that can buy that ever.
04. Keep building and creating things and working with your students – our future. That's what gets you out of bed in the morning. Shri GM Rao, the eminent scientist says, 'Society has given us all that we have today and we feel it is our responsibility to return our gratitude and practice social responsibility as a whole.' And this is the 100% pass result of our children.

Experiencing the rewards from realizing a dream is glorious, and every teacher who fulfills his dreams deserves each and everyone of those rewards. Most likely you will also be filled with excitement and enthusiasm to continue to build on your success and take your dream even further, now knowing that you can think of it. And this is my task of rewarding you. And I'll do it.

Wishing you all my support on your journey to 100% quality pass result in Class X and XII for the year.

I request you to send me your Action Taken Report after you have received this DO, alongwith the comments of your Principal thereon, immediately and within three days.

Yours sincerely,
