DEPUTY COMMISSIONER

Dated: 22/08/2016

F.DO/2016/KVS(BPL)

Dear Principals,

Great success needs the following two things, apart from other ones.

01. **The power of consciousness:** Success? Get the success consciousness. Live the spirit until it becomes yours by right. It will then become impossible to keep it away from you. The things of the world are fluid to the power of consciousness within man by which he rules them. Interestingly, you need not acquire this power. You have it. But you want to understand it, use it, control it, so that you can go forward and carry the world before you. Day by day, as you go on and on, as you gain momentum, as your inspiration deepens, as your plans crystallize, as you gain understanding, you will come to realize that this world is no dead pile of stones and timber but that it is a beautiful living thing. It is made up of the beating hearts of children and adults. It is a thing of life which is made of success. It has a deeper, fuller, clearer meaning. Rightly said, that much gathers more is true on every plane of existence and that loss (failure) leads to greater loss is equally true.

You probably know that there is a world within – a world of thought & feeling and power; of light and life and beauty and its forces are mighty. The world within is governed by mind. When we discover this world we shall find the solution for every problem, failure included. Since the world within is subject to our control, all laws of power and success are also within our control. The world without is a mere reflection of the world within. What appears without is what has been found within. In the world within lies infinite success, infinite supply of all that is needed for success and its expression. If we recognize these potentials of our own and those of children under our care they will take form in the world without (success in CBSE exam). Life is, indeed, an unfoldment, not an accretion. What comes to us in the world outside is what we already possess in our own world within. The world within is the cause and the world without is the effect. To change the effect you must change the cause. All growth (success) is from within. Every plant, every animal and every human being is a living testimony to this great fact, and the error of the ages is in looking for it from without. That is why, **I AM A WINNER. SUCCESS FOLLOWS ME.**

The whole universe works on the cause and effect principle. Thought is the cause and the experiences with which you meet in life are the effects. Eliminate, therefore, any possible tendency to complain of results as they have been or as they are, because it rests with you to change them and make them what you would like them to be. Direct your efforts to a realization of the mental power at your command, from which the lasting success comes. Persist in this practice until you come to a realization of the fact that there can be no failure at all, because the mind is ever ready to land itself to a purposeful will in the effort.

When the thoughts like my DOs are received by the brain it gets satisfied that the thoughts are true, to be brought forth into a reality, and when it happens brain experiences a pleasant sensation, ready to receive another thought (DOs). This is the simple and effective way in which the best results are secured. It is the method which is producing results that many think that miracles are being accomplished.

02. **The power of motivation:** Motivation is like an accelerator in a vehicle. A vehicle keeps moving at the pace decided by its accelerator. The moment the accelerator is reduced, the speed reduces and it may come to standstill if there is no further acceleration. Alternatively, if brakes are applied, there will be an abrupt reduction in the speed and it may come to standstill. This is true to human beings as well. As long as they (staff and students) are motivated they keep working and producing results. The moment there is a drop in their acceleration (motivation) results start diminishing. Of course, applying brakes (demotivation) certainly brings them back to a halt. I am writing DOs to both staff and students keeping this sense of success in mind. It is an effort to augment your endeavours for a big success. Reading DOs over and over when available on their teacher's diaries shall mean their brains' receiving and working on them. This is damaging only if the same are not delivered the way I want i.e. downloading them all, taking photocopies and handing them over to your staff and students, as applicable. Don't simply circulate the copy or send them by e-mail or do Whatsapp. Stop it, and instead provide them in hard copies, one set to each. This is the tool toward 100% quality pass result. My experience is result for the year suffered, being not 100%, owes to this neglect, too.

I request you to acknowledge and send the action taken report within three days; also share with teachers.

Yours sincerely,

(ISAMPAL)
