

National Talent Search Examinations

The National Council of Educational Research and Training (NCERT) was established by the Government of India in the year 1961 with a view to bringing about qualitative improvement in school education in the country. No sooner the Council was set up than it mounted a number of programmes in this direction. One such programme was to identify and nurture the talented students. This programme took up the shape of a scheme called National Science Talent Search Scheme (NSTSS) in the year 1963 which provided for the identification of talented students and awarding them with scholarships.

Note: Result is awaited.
